

# PROMPT AND COMPARE

Explore which answers an AI chatbot gives you and can be of use

1

Form groups of three. Use an AI chatbot. All three of you have to work with the same AI chatbot and on your own device. Now write this exact sentence on your device.

SENTENCE

'Give me good expressions at level A2 in English that I can use to present my role model.'

2

COMPARE

Read the answers you got and compare. Did you get the same suggestions? If not, give your first guess as to why not.

3

PROMPT FURTHER

Continue to prompt until you get results you find useful.

4

REFLECTIONS

Why do you think that each of you gets different results?  
How could you get more relevant answers?
